"I learned a great deal at the course recently held in Toronto. I had received some previous training, but clearly (from the results I am seeing) your technique is more efficient, with more noticeable results. So, thank you." I Henry, Toronto, Ontario

"Treated my first SCFR® client today and WOW..she is 65 and has had many stressful heart wrenching episodes in her life. Her face DID show the trials she has experienced ...I am very delighted about the results we were able to achieve." D Hill, British Columbia

Participant Feedback from Previous Second Chance Facial Rejuvenation® Courses

"One of my classmates had deep nasolabial folds, which is common for women as they age. When I treat these folds in my practice with a hyaluronic acid injection, like Juvederm or Restylane, it often costs the client \$600-\$800 to have these folds filled. I treated my classmate on the first day of this course with the Accuomatic and her nasolabial folds were gone. I could not believe it! Her whole face was noticeably tighter, higher, and the texture was wonderful. I can only imagine what she would look like with the recommended treatment protocol. I will definitely be using the Second Chance protocol myself and will introduce it into my cosmetic practice."

Tanya Pentelichuk MD CCFP, Alberta

The results from the non surgical facelift procedure have been very noticeable and positive. Some of the limitations of cosmetic acupuncture such as fine lines around the eyelids, occasional bruising, patient discomfort and slower results have supported my decision to find a more effective alternative. I am seeing results with every treatment and patients are impressed! The Accu-o-matic micro-current machine allows me to address common concerns such as fine lines on the upper and lower eyelids and sagging skin (especially of the neck area), where cosmetic acupuncture was not as effective. I recommend the course and Accu-o-matic to any practitioner thinking of incorporating cosmetic and anti-aging protocols.

Rated "Very satisfied" Charlene Kush, Naturopathic Doctor, Ontario, Canada

"I liked how we did the "meat" of the course on the first day. Made me feel more organized and fulfilled.... Made a person who doesn't have formal training feel pretty comfortable about oneself." Rated "Very satisfied" Kim Maydonick, Physio Aide, Lloydminster, Alberta

"I liked the blending of essential oils, micro-current and Chinese medicine; evidence based practice; practical sessions; opportunity to try products; and the instructor's personal experience. The cost represents the work put into developing the course, so appropriate"

Rated "Very satisfied" Jennifer Wright, Physical Therapist, Bragg Creek, Alberta, Canada

"Course organization was well above expectations. Initially I thought the price was high, but the way it was set up, people can start a business with it.....I think it was well worth it! Rated "Very satisfied" Joyce Salzl Borzel, Physical Therapist, Lloydminster, Alberta, Canada

"The class was presented at a level that professionals and non professionals were comfortable with. I was able to understand course material, AND practice techniques with very little related skills/experience. I really liked the balance of theory vs practical application. It really helped to enhance the learning."

Rated "Very Satisfied" Maggie Jones, Rocky Mtn House, Alberta, Canada

I was impressed with how I looked after 2 days and I plan to use the newly learned technique to help my patients. Thank you for the knowledge!
